The batch mixer can be used for a wide variety of materials such as mortar, adhesive, plaster, grouting materials, putty and much more. The mixer scores with excellent mixing results, rapid bottom discharge, compact and robust design, and large transport rollers for the rigours of the construction site. Ideal for painters and stucco plasterers, screed installers and tilers, bricklayers and plasterers.

Kindly note: All specifications are dependent on the products used.
**ADVANTAGES AT A GLANCE**

1. Excellent mixing result
   From the offset arrangement of the mixing arms with mixing blades and wall scraper.

2. Quick cleaning
   The mixing arms can be easily removed without tools and replaced individually.

3. Easy and dosed filling
   This is possible through the sack opener on the protective grille.

4. Highest level of safety
   Through the lockable protection grille.

5. Central operating switch
   Provided with a quick stop button and a safety switch off for the drum cover.

6. Solid and sturdy design
   Not too wide for any door and with its large transport wheels, it easily reaches up to the top.

7. Simple transport
   Can be loaded easily by one person and fits in any estate car.

8. Easy and fast emptying
   Whether in buckets, mortar buckets or wheelbarrows through a segment slider integrated in the bottom of the drum.

**FIELDS OF APPLICATION**

For the most materials:
- Cement mortar
- Plaster
- High-grade plaster
- Adhesive
- Plaster stone
- Terrazzo
- Putty
- Lime
- Screed
- Grouting
- Coating compounds
- Plaster and masonry mortar
